

**June 8-11
Hyatt Regency
Downtown, Louisville
(320 West Jefferson)**

**Trust us - you will not
want to miss this...**

In today's environment of change and soon-to-be corporate regulatory requirements, it is essential to become savvy in application of technical and enterprise governance. The Kentuckiana Chapter of ISACA is proud to present a unique four-day seminar on the topic of Corporate Governance. The two courses - both taught by Gordon Smith, President and CEO of Canaudit, Inc. - can be taken individually or together. Space is extremely limited and an extremely high volume of interest is expected. Please take advantage of our early bird prices (through March 31st).

Understanding & Preventing Electronic Fraud

When: Monday, June 8 and Tuesday, June 9, 2009

Time: 8:00 am sign-in, 8:30 am to 5:00 pm

Mr. Smith will provide the participants with an understanding of the types of E-fraud and how to detect and prevent them. The participants will learn the need for network, application, and server security, as well as the need to build fraud sniffers, monitors, and surveillance applications.

Corporate Insecurity: Pillaging Information Assets, Destroying Established Reputations

When: Wednesday, June 10 and Thursday, June 11, 2009

Time: 8:00 am sign-in, 8:30 am to 5:00 pm

In this highly charged and controversial presentation, Mr. Smith will demonstrate how old-style controls can be easily defeated. Section by section, control by control, he will demonstrate how easy it is to defeat control structures. This is a session that must not be missed!
